

National Call for Unity 2020 - 10/1 @ 3pm ET

#1 Thing

Join us as we come together in solidarity with survivors, advocates, and partners from national, state and community-based organizations. Together we will celebrate our movement's accomplishments and reflect on our shared experiences as we move together

Every year the National Call for Unity kicks off Domestic Violence Awareness Month by offering an opportunity to mourn, celebrate, and connect with advocates from national, state, and community-based organizations, governmental agencies, allied movements, survivors and their family and friends. The 2020 video call featured stories of perseverance, resilience and strength, each speaker will offer their personal stories of inspiration to do this work.
